DAVIDSON

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Velocity Minerals Ltd.

Opinion

We have audited the accompanying consolidated financial statements of Velocity Minerals Ltd. (the "Company"), which comprise the consolidated statements of financial position as at December 31, 2025 and 2024, and the consolidated statements of loss and comprehensive loss, changes in shareholders' equity, and cash flows for the years then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audit is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 of the consolidated financial statements, which indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our auditor's report.

Assessment of Impairment Indicators of Exploration and Evaluation Assets ("E&E Assets")

As described in Note 8 to the consolidated financial statements, the carrying amount of the Company's E&E Assets was \$26,447,021 as of December 31, 2025. As more fully described in Note 2 to the consolidated financial statements, management assesses E&E Assets for indicators of impairment at each reporting period.

The principal considerations for our determination that the assessment of impairment indicators of the E&E Assets is a key audit matter are that there was judgment made by management when assessing whether there were indicators of impairment for the E&E Assets, specifically relating to the assets' carrying amount which is impacted by the Company's intent and ability to continue to explore and evaluate these assets. This in turn led to a high degree of auditor judgment, subjectivity, and effort in performing procedures to evaluate audit evidence relating to the judgments made by management in their assessment of indicators of impairment that could give rise to the requirement to prepare an estimate of the recoverable amount of the E&E Asset.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. Our audit procedures included, among others:

- Obtaining an understanding of the key controls associated with evaluating the E&E Assets for indicators of impairment.
- Evaluating management's assessment of impairment indicators.
- Evaluating the intent for the E&E Assets through discussion and communication with management.
- Reviewing the Company's recent expenditure activity and expenditure budgets for future periods.
- Assessing compliance with agreements and expenditure requirements including reviewing option agreements.
- Assessing the Company's rights to explore E&E Assets including the good standing of agreements.

Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report includes Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

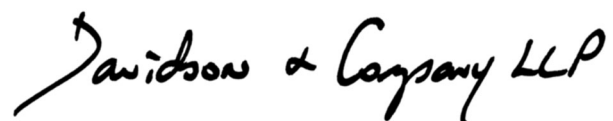

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Yu Li.

A handwritten signature in black ink that reads "Davidson & Company LLP". The signature is written in a cursive, flowing style.

Supplemental disclosure with respect to cash flows (Note 14)

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

Velocity Minerals Ltd. (“Velocity” or, the “Company”) was incorporated under the laws of the province of Alberta on September 22, 2000 and was continued into British Columbia on December 2, 2004. The registered and records offices of the Company are located at Suite 880, 320 Granville Street, Vancouver, BC, V6C 1S9, Canada.

The common shares of the Company trade on the TSX Venture Exchange (“TSX-V”) with the symbol “VLC.V” as well as on the OTCQB Venture Market under the symbol “VLCJF”. The Company is in the business of acquiring, exploring, and evaluating mineral resource properties in Bulgaria.

The Company is in the process of exploring its mineral resource properties and evaluating new properties for potential acquisition. The Company has determined that it has one mineral reserve but has not yet determined whether its other properties contain reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets depends upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves, and upon future profitable production or sale of the assets.

On February 24, 2025, the Company entered into a definitive share purchase and option agreement to sell all of its Bulgarian assets (Note 3). Pursuant to the agreement, the Company agreed to sell its 70% interest in the Rozino project, together with certain licences, licence applications, and associated tenures and rights, to Türker Global Madencilik Sanayi Ve Ticaret A.Ş. (“Türker Mining”), and Türker Mining agreed to acquire 100% of the foregoing assets for a total consideration of US\$ 55.0 million, payable in two tranches. The Company further granted to Türker Mining an option to acquire the Company’s interest in certain other Bulgarian mineral property assets, including licences, licence applications, and associated tenures and rights, for an aggregate purchase price of US\$ 4.0 million.

On June 4, 2025, the Company provided notice to Türker Mining confirming Velocity’s shareholders’ approval and TSX Venture Exchange conditional acceptance of the transaction, establishing a deposit date (“Deposit Date”) of June 23, 2025, being 10 business days thereafter. On June 5, 2025, the Company received the first tranche payment of US\$ 16.5 million from Türker Mining (Note 3 and 7). Until closing of the transaction, Türker Mining is responsible for funding all expenditures required to maintain the operations of the Company’s Bulgarian subsidiaries and to keep the projects in good standing. The Company has been engaged by Türker Mining as operator during this period and earns management fees for these services.

The closing of the transaction remains subject to customary conditions precedent, and there can be no assurance that it will be completed as contemplated, or at all.

As at December 31, 2025, the Company had working capital of \$297,410 (December 31, 2024 - \$524,429), and an accumulated deficit of \$27,044,236 (December 31, 2024 - \$24,839,704).

The Company expects to incur further losses in the development of its business. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent on the successful completion of the transaction disclosed in Note 3 or, if the transaction does not proceed, on the Company’s ability to retain and deploy its share of the purchase deposit to fund the exploration and development of its mineral properties and, ultimately, to achieve profitable operations. There is no assurance, however, that the transaction will close as contemplated or that, in the absence of the transaction, the Company will be able to obtain sufficient financing on favourable terms or adequate returns from its properties. These material uncertainties may cast significant doubt about the Company’s ability to continue as a going concern.

These consolidated financial statements have been prepared based on accounting principles applicable to a going concern which assumes the Company will be able to realize its assets and discharge its liabilities in the normal courses of business rather than through a process of forced liquidation. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset and amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

2. MATERIAL ACCOUNTING POLICIES

Statement of compliance

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

These consolidated financial statements were authorized for issue and approved by the Board of Directors on April 20, 2026.

Basis of presentation

These consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The functional currency and presentation currency of the Company and its subsidiaries is the Canadian dollar.

Reclassification of prior year presentation

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations. An adjustment has been made to the consolidated statement of financial position and consolidated statements of cash flows for fiscal year ended December 31, 2024 to reclassify the restricted cash of \$66,743.

Basis of consolidation

These consolidated financial statements represent the results of the Company and its subsidiaries. Amounts are reported in Canadian dollars, unless otherwise indicated.

Subsidiary	Location	Ownership Interest
Velocity Exploration Ltd. (“Velocity Exploration”)	Canada	100%
Kibela Minerals AD (“Kibela”)	Bulgaria	100%
Kabiri Minerals EOOD (“Kabiri”)	Bulgaria	100%
Tintyava Exploration AD (“Tintyava”)	Bulgaria	70%
Tintyava AgriBio EOOD (“Tintyava AgriBio”)	Bulgaria	70%
Tethyan Exploration EOOD (“Tethyan”)	Bulgaria	100%
Balkan Minerals Development EOOD (“BMD”)	Bulgaria	100%
Zlatusha Minerals EOOD (“Zlatusha”)	Bulgaria	100%
Velocity Minerals Greece SA (“Velocity Greece”)	Greece	100%

The Company consolidates its subsidiaries on the basis that it controls the subsidiaries through its ability to govern their financial and operating policies. The Company attributes total comprehensive loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. All intercompany transactions and balances have been eliminated.

Non-controlling interests are measured initially at their proportionate share of the acquiree’s identifiable net assets at the date of acquisition. Changes in the Company’s interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Foreign currency transactions

Functional and presentation currency

The functional currency is the currency of the primary economic environment in which the entity operates. The functional currency of the Company and its subsidiaries was determined by conducting an analysis of the consideration factors identified in IAS 21, “*The Effects of Changes in Foreign Exchange Rates*” (“IAS 21”). The functional currency of the Company and its subsidiaries is the Canadian dollar.

Translation of foreign transactions and balances into the functional currency

Foreign currency transactions are translated into the functional currency of the entity at rates of exchange prevailing on the dates of the transactions.

At each financial position reporting date, all monetary assets and liabilities that are denominated in foreign currencies are translated to the functional currency of the Company at the rates prevailing at the date of the statement of financial position. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss.

Cash and cash equivalents

Cash and cash equivalents consist of restricted cash and highly liquid short-term investments that are readily convertible to cash and have maturities with terms of less than ninety days and/or with original maturities over ninety days but redeemable on demand without penalty.

Restricted cash

Restricted cash comprises cash balances that are not available for general use by the Company as they are subject to contractual or legal restrictions. It is classified as current or non-current based on the expected timing of release and presented separately from cash and cash equivalents in the statement of financial position.

Property and equipment

Property and equipment are recorded at cost, less depreciation, depletion and accumulated impairment losses, if any. Where significant components of buildings and equipment have different useful lives, the components are accounted for as separate items. Expenditures incurred to replace a component that is accounted for separately, including major inspection and overhaul expenditures, are capitalized. Directly attributable expenses incurred for major capital projects are capitalized until the asset is brought to a working condition for its intended use.

These costs include dismantling and site restoration costs to the extent these are recognized as a provision. The cost of self-constructed assets includes the cost of materials, direct labour and an appropriate portion of normal overhead. The costs of day-to-day servicing are recognized in expenses as incurred, as “maintenance and repairs.”

The Company depreciates its assets, less their estimated residual values, as follows:

Category	Method	Useful life
Equipment and vehicles	Straight-line	3-5 years
Computers and software	Straight-line	1-3 years
Right-of-use asset	Straight-line	Earlier of useful life or term of lease

The depreciation method, useful life and residual values are assessed annually.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Exploration and evaluation assets

Exploration and evaluation assets include the costs of acquiring licenses, and costs associated with exploration and evaluation activity. All costs related to the acquisition, exploration and evaluation of mineral resource properties are capitalized by property. Option payments are considered acquisition costs provided that the Company has the intention of exercising the underlying option. Property option agreements are exercisable entirely at the option of the optionee. Therefore, option payments (or recoveries) are recorded when payment is made (or received) and are not accrued. Option payments received net of costs incurred are treated as a reduction in the carrying value of the related acquisition costs of the exploration and evaluation asset until the payments are in excess of acquisition costs, at which time they are credited to profit or loss.

Costs incurred before the Company has obtained the legal rights to explore an area, including professional fees incurred in connection with executing an option agreement, are expensed through profit or loss.

Once the technical feasibility and commercial viability of the extraction of mineral resources in an area of interest are demonstrable and the Company's board of directors have approved a construction decision, exploration and evaluation assets attributable to that area of interest are first tested for impairment and then reclassified to development assets within equipment.

Recoverability of the carrying amount of the exploration and evaluation assets is dependent on successful development and commercial exploitation, or alternatively, the sale of the respective areas of interest.

Partner funded exploration

Amounts received from partners in connection with earn-in agreements are netted firstly against the capitalized exploration expenditures on the applicable licenses and thereafter are recognized in the Company's statement of loss and comprehensive loss. Any advances received for future exploration work, or any reimbursable funds expended by the Company are recognized separately in the statement of financial position. Operator fees are recognized in profit or loss, as they represent fees earned by the Company as the designated operator of its projects under earn-in agreements.

When the Company receives a payment from a partner in advance of the exploration work being performed, the prepayment is shown as advances from partners.

Decommissioning and Restoration Provisions

Decommissioning and restoration provisions are recorded when a present legal or constructive obligation exists as a result of past events where it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Decommissioning and restoration provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized in profit or loss.

Decommissioning and restoration provisions are recognized at the present value of management's best estimate of fair value of the expenditures required to settle the present obligation at the reporting date. Subsequent to initial measurement, the obligation is adjusted at the end of each period to reflect the passage of time and changes in the estimated future cash flows underlying the obligation. The increase in the provision due to the passage of time is recognized as accretion whereas increases/decreases due to changes in the estimated future cash flows are added to or deducted from the related asset. Actual costs incurred upon settlement of decommissioning and restoration provisions are charged against the provision to the extent the provisions were established.

Changes in reclamation estimates are accounted for prospectively as a change in the corresponding capitalized cost.

The Company did not have any decommissioning and restoration provisions for the years presented.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Impairment of long-lived assets

At the end of each reporting period the carrying amounts of the Company's long-lived assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Where an impairment subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate and its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior periods. A reversal of an impairment loss is recognized immediately in profit or loss.

Leases

The Company assesses whether a contract is, or contains, a lease, at the inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets such as office printers. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Right-of-use assets, which are included in property and equipment, are recognized at cost, which is comprised of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs and decommissioning and restoration costs, less any lease incentives received. Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise of the following:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees; and
- Payments of penalties for terminating the lease if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Leases (cont'd...)

The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- A lease contract is modified, and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

Leases for which the Company is a lessor, are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Share capital

Common shares are classified as shareholders' equity. Incremental costs directly attributable to the issue of common shares and other equity instruments are recognized as a deduction from shareholders' equity. Common shares issued for consideration other than cash, are valued based on their market value at the date of grant.

The Company has adopted the residual value method with respect to the measurement of shares and warrants issued as part of private placement units. The residual value method first allocates value to common shares issued in the private placements at their fair value, as determined by the closing quoted bid price on the issuance date. The balance, if any, is allocated to the warrants. Any fair value attributed to the warrants is recorded as reserves within shareholders' equity.

Financial instruments

Financial assets are classified according to their contractual cash flow characteristics and the business models under which they are held. On initial recognition, a financial asset is classified as: amortized cost, fair value through profit and loss ("FVPL"), or fair value through other comprehensive income ("FVOCI").

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVPL:

- it is held with the objective of collecting contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as amortized cost or FVOCI are classified as and measured at FVPL. This includes all derivative assets. On initial recognition, a financial asset that otherwise meets the requirements to be measured at amortized cost or FVOCI may be irrevocably designated as FVPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial instruments are measured on initial recognition at fair value, plus, in the case of financial instruments other than those classified as FVPL, directly attributable transaction costs. Measurement of financial assets in subsequent periods depends on whether the financial asset has been classified as amortized cost, FVPL or FVOCI. Measurement of financial liabilities subsequent to initial recognition depends on whether they are classified as amortized cost or FVPL. Financial assets and financial liabilities classified as amortized cost are measured subsequent to initial recognition using the effective interest method.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Financial instruments (cont'd...)

An 'expected credit loss' impairment model applies which requires a loss allowance to be recognized based on expected credit losses. The estimated present value of future cash flows associated with the asset is determined and an impairment loss is recognized for the difference between this amount and the carrying amount as follows: the carrying amount of the asset is reduced to estimated present value of the future cash flows associated with the asset, discounted at the financial asset's original effective interest rate, either directly or through the use of an allowance account and the resulting loss is recognized in profit or loss for the period.

In a subsequent period, if the amount of the impairment loss related to financial assets measured at amortized cost decreases, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

Financial liabilities that are not contingent consideration of an acquirer in a business combination, held for trading, or designated as at FVPL, are measured at amortized cost using the effective interest method. These liabilities are initially recognised as fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortised cost using the effective interest rate method.

Accounts payable and accrued liabilities represent liabilities for goods and services provided to the Company prior to the end of the period, which are unpaid. Accounts payable and accrued liabilities are unsecured.

Compound financial instruments issued by the Company comprise convertible notes denominated in Canadian dollar that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

Company has classified and measured its financial instruments as described below:

- Cash and cash equivalents and restricted cash are classified as FVPL.
- Receivables are classified as and measured at amortized cost.
- Trade and other payables are classified as and measured at amortized cost.
- Advances from partners for exploration are classified as and measured at amortized costs.

Share-based payments

The Company has an employee stock option plan. Share-based payments to employees are measured at the fair value of the instruments issued and amortized over the vesting periods. Share-based payments to non-employees are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured, and are recorded at the date the goods or services are received. The corresponding amount is recorded to reserves. The fair value of options is determined using a Black-Scholes option pricing model which incorporates all market vesting conditions.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Share-based payments (cont'd...)

The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognized for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest. The proceeds received, net of any directly attributable transaction costs, are credited to share capital when the options are exercised.

Income taxes

Current tax is the expected tax payable or receivable on the local taxable income or loss for the year, using local tax rates enacted or substantively enacted at the financial position reporting date, and includes any adjustments to tax payable or receivable in respect of previous years.

Deferred taxes are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the financial position reporting date. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting, nor taxable profit or loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Loss per share

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

Non-controlling interest

Non-controlling interest in the Company's less than wholly owned subsidiary is classified as a separate component of equity. On initial recognition, non-controlling interests are measured at their proportionate share of the acquisition date fair value of identifiable net assets of the related subsidiary acquired by the Company. Subsequent to the original transaction date, adjustments are made to the carrying amount of non-controlling interest for the non-controlling interest's share of changes to the subsidiary's equity.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are recorded as equity transactions. The carrying amount of non-controlling interest is adjusted to reflect the change in the non-controlling interest's relative interest in the subsidiary, and the difference between the adjustment to the carrying amount of non-controlling interests and the Company's share of proceeds received and/or consideration paid is recognized directly in equity and attributed to owners of the Company.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Critical accounting estimates and judgements

The preparation of these consolidated financial statements requires management to make certain estimates, judgements and assumptions that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made.

The information about significant areas of judgement and estimation uncertainty considered by management in preparing these consolidated financial statements is as follows:

Going concern

The preparation of these consolidated financial statements requires management to make judgements regarding the going concern of the Company as previously discussed in Note 1.

Income taxes

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred income tax provisions or recoveries could be affected. To the extent that any of management's assumptions change, there could be a significant impact on the Company's future financial position, profit or loss and cash flows.

Carrying value and recoverability of exploration and evaluation assets

The carrying amount of the Company's exploration and evaluation assets does not necessarily represent present or future values, and these assets have been accounted for under the assumption that the carrying value will be recoverable. Recoverability is dependent on various factors, including the discovery of economically viable reserves, the ability of the Company to obtain the necessary financing to complete development, and upon future profitable production or proceeds from the disposition of the exploration and evaluation assets themselves.

Share-based payments

Share-based payments are determined using the Black-Scholes option pricing model based on estimated fair values of all share-based awards at the date of grant and are expensed to net loss over each award's vesting period. The Black-Scholes option pricing model utilizes subjective assumptions such as expected price volatility and expected life of the option/warrant. Changes in these input assumptions can significantly affect the fair value estimate.

Changes in accounting standards

Accounting standards adopted during the year

There were no new accounting standards effective January 1, 2025 that impacted these consolidated financial statements.

Accounting standards and amendments issued but not yet adopted

The following standards and interpretations, which may be applicable to the Company, have been issued but are not yet effective as of December 31, 2025:

IFRS 18

On April 9, 2024, the IASB issued IFRS 18, Presentation and Disclosure in Financial Statements, a new standard on presentation and disclosure in financial statements with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to: the structure of the statement of profit or loss; required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements; and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but may change what an entity reports as its 'operating profit or loss'.

IFRS 18 will apply for reporting periods beginning on or after January 1, 2027 and also applies to comparative information. The Company is evaluating how IFRS 18 will impact the disclosures in its consolidated financial statements in future periods.

2. MATERIAL ACCOUNTING POLICIES (cont'd...)

Changes in accounting standards (cont'd...)

Accounting standards and amendments issued but not yet adopted (cont'd...)

IFRS 7 and 9

In May 2024, the IASB issued amendments to the classification and measurement of financial instruments (IFRS 7 and IFRS 9), which included clarification that a financial liability is derecognized on the 'settlement date'; an accounting policy option to derecognize financial liabilities that are settled through an electronic payment system before settlement date if certain conditions are met; clarification on how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance-linked features; and requires additional disclosures under IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event. The amendments to IFRS 7 and IFRS 9 will be effective for annual reporting periods beginning on or after January 1, 2026. The amendments to IFRS 7 and IFRS 9 are not expected to have a material impact on the Company's consolidated financial statements.

3. SALE OF BULGARIAN ASSETS

On February 24, 2025, the Company entered into a definitive share purchase and option agreement (the "Definitive Agreement") with Türker Mining, a subsidiary of Türkerler İnşaat Turizm Madencilik Enerji Üretim Ticaret ve Sanayi A.Ş. ("Türkerler"), a diversified company based in Ankara, Turkey.

Pursuant to the Definitive agreement, the Company agreed to (i) sell its 70% interest in the Rozino project, together with certain licences, licence applications and associated tenures and rights (the "Rozino Project")⁽¹⁾ to Türker Mining, and (ii) grant to Türker Mining the option to acquire Velocity's interest in certain other Bulgarian mineral property assets, licences, licence applications and associated tenures and rights (collectively, the "Non-Rozino Assets"⁽²⁾; together with the Rozino Project, the "Subject Assets") (the "Transaction").

Commercial Terms

Under the terms of the Definitive Agreement, which supersedes and replaces the previously announced letter agreement between the Company and Türkerler, Türker Mining agreed to purchase 100% of the Rozino Project for US\$ 55.0 million (the "Rozino Purchase Price"). The Rozino Purchase Price will be payable in two tranches, as follows:

(i) an initial payment in the amount of US\$ 16.5 million within 60 days following receipt of the Company's shareholders' approval and TSX Venture Exchange ("TSXV") acceptance for the Transaction (the "First Tranche Payment"). On June 4, 2025, the Company provided notice to Türker Mining confirming Velocity's shareholders' approval and TSXV conditional acceptance of the Transaction, establishing the Deposit Date of June 23, 2025, being 10 business days thereafter. On June 5, 2025, the Company received the First Tranche Payment from Türker Mining (Note 4); and

(ii) an additional payment in the amount of US\$ 38.5 million (the "Second Tranche Payment") on or before the 18 month anniversary of the Deposit Date (the date of the Second Tranche Payment being the "Closing"), provided that if the Second Tranche Payment is paid by Türker Mining on or before the 12 month anniversary of the Deposit Date, then the amount of the Second Tranche Payment will be reduced by US\$ 1.5 million. If Türker Mining fails to make the Second Tranche Payment, it will acquire no interest in the Subject Assets and the First Tranche Payment will be non-refundable in accordance with the terms of the Definitive Agreement. Gorubso-Kardzhali AD, which holds a 30% interest in the Rozino Project, will be entitled to 30% of the Rozino Purchase Price.

In order to exercise the option to acquire the Non-Rozino Assets, Türker Mining must make a cash payment of US\$ 4.0 million (the "Non-Rozino Purchase Price") to the Company prior to Closing, provided that the option shall not be exercisable unless and until Türker Mining shall have paid the Second Tranche Payment. Upon payment of the Non-Rozino Purchase Price, Türker Mining shall be deemed to have exercised the option and agreed to acquire a 100% interest in the Non-Rozino Assets. The acquisition by Türker Mining of the Rozino Project and, if the option is exercised, the Non-Rozino Assets, will be affected through the sale and purchase of shares in the Bulgarian subsidiaries holding the Subject Assets.

In connection with the Transaction, Türker Mining paid to the Company a \$1,443,775 (US\$ 1,000,000) transaction fee upon execution of the Definitive Agreement.

Türker Mining has engaged the Company under a funding and technical services agreement pursuant to which Türker Mining is responsible, until Closing, for funding all exploration and development costs required to (i) keep the Subject Assets in good standing, (ii) complete field work supporting Türker Mining's planned Feasibility Study (to be prepared in accordance with National Instrument 43-101 Standards of Disclosure for Mineral Projects), and (iii) file an Environmental Impact Assessment report required under Bulgarian mine permitting regulations.

As at December 31, 2025, Türker Mining advanced \$4,987,121 to the Company to finance operations activities in connection with the Subject Assets as required per the Definitive Agreement. During the year ended December 31, 2025, \$3,125,745 of the advanced funds were applied to exploration and evaluation costs as incurred (Note 8).

⁽¹⁾ Rozino Project includes projects Tintyava, Dangovo and certain licences, licence applications and associated tenures and rights.

⁽²⁾ Non-Rozino Assets include the projects Nadezhda, Momchil, Iglıka, Zlatusha, Toledo, and certain license applications

3. SALE OF BULGARIAN ASSETS (cont'd...)

Subject to certain terms and conditions in the Definitive Agreement, Türker Mining and the Company are each responsible for payment of a break or non-completion fee to the other party in certain circumstances if the Transaction does not proceed.

The Transaction was approved by the Company's shareholders at a special meeting held on April 15, 2025.

Closing is subject to customary conditions precedent, including, without limitation, receipt of all necessary third-party consents and approvals.

Aggregate finder's and success fees of 4% of the Purchase price, payable to the Company, are payable upon Closing of the Transaction.

4. RESTRICTED CASH

At December 31, 2025, restricted cash of \$22,614,900 is held in connection with a standby letter of credit of US\$16.5 million issued to Gorubso. The standby letter of credit secures (i) the return to Gorubso of share certificates deposited in escrow if the Transaction does not close, and (ii) payment to Gorubso of 30% of the Rozino Project purchase price if the Transaction closes (Note 3). The first tranche payment received under the Transaction (Note 3) is held as collateral for this standby letter of credit and is not available for working capital purposes.

The Company pays monthly fees in respect of the standby letter of credit and earns interest on the restricted cash held at a reputable Canadian financial institution. Interest earned on the restricted cash is available to the Company for working capital purposes.

In addition, restricted cash of \$147,438 relates to bank guarantees issued to the Ministry of Energy and Resources of Bulgaria in support of the exploration programs on the Igljika and Dangovo projects.

5. RECEIVABLES

	2025	2024
Receivable and other	\$ 4,410	\$ 15,691
Taxes receivable	233,868	40,456
Total	\$ 238,278	\$ 56,147

As at December 31, 2025, the Company's taxes receivable relates to operations in Bulgaria and Canada. All of the amounts are current and receivable within 90 days.

6. PROPERTY AND EQUIPMENT

The Company had recognized right-of-use assets in respect to vehicles leases and site office lease in Bulgaria, and a right-of-use asset a lease of office space in Canada.

During the year 2024, the Company sublet its office space in Canada to an arm's length party until the end of the office lease term, resulting in the derecognition of the associated right-of-use-asset of \$65,656, and recognition of a lease receivable of \$132,949 (Note 9).

As at December 31, 2025, right-of-use assets carrying balances are in respect to office space leases in Bulgaria only.

During the year ended December 31, 2025, the Company capitalized \$31,295 (2024 - \$48,507) of depreciation to exploration and evaluation assets, included in line-item Field and vehicles (Note 8(h)), and included \$nil of depreciation in project evaluation expense (Note 12) within line-item Field and vehicles (2024 - \$11,430).

6. PROPERTY AND EQUIPMENT (cont'd...)

	Right-of- use assets	Equipment and vehicles	Computers and software	Total
Costs				
Balance at December 31, 2023	\$ 165,981	\$ 354,733	\$ 121,514	\$ 642,228
Additions	452	5,320	-	5,772

Balance at December 31, 2025	(23,153)	(321,197)	(120,673)	(465,023)
Book value, December 31, 2024	\$ 15,439	\$ 80,869	\$ 4,926	\$ 101,234
Book value, December 31, 2025	\$ 5,706	\$ 66,425	\$ 7,170	\$ \$79,301

7. PARTNER FUNDED EXPLORATION

Operator's fees and reimbursable expenses during the year ended December 31, 2025 are in connection with the funding and services agreement with Türker Mining (Note 3).

During the year ended December 31, 2024, exploration programs funded by a partner and operator fees earned were in respect to the Company's Iglıka Property, pursuant to an earn-in agreement, which was terminated effective July 30, 2024 (Note 8(d)).

During the year ended December 31, 2024, the Company recognised other income in the amount of \$489,525 in relation to the partner funded exploration.

8. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many exploration and evaluation assets. The Company has investigated title to all its exploration and evaluation assets and, to the best of its knowledge, title to all of its properties are in good standing.

a) Tintyava Property – Bulgaria

On July 19, 2017, the Company, through its subsidiary Kibela, entered into an option agreement whereby the Company was granted an option by Gorubso-Kardzhali AD ("Gorubso") to acquire an undivided 70% legal and beneficial interest in Tintyava, an entity owned by Gorubso that holds a 100% interest in a prospecting and exploration permit located in south-eastern Bulgaria (the "Tintyava Option").

For the Company to exercise the Tintyava Option, it had to make the payment of a tender fee of 360,000 BGN (\$266,760) to the Ministry of Energy of the Republic of Bulgaria and deliver a preliminary economic assessment on the Tintyava Property prepared under National Instrument 43-101 of the Canadian Securities Administrators ("NI 43-101"). During 2019, the Company met the obligations of the option agreement and exercised its option to acquire an undivided 70% interest in the Tintyava property. As a result, on March 1, 2019, shares of Tintyava, representing 70% ownership by the Company, were registered in the name of Kibela.

8. EXPLORATION AND EVALUATION ASSETS (cont'd...)

b) Nadezhda Property and Dangovo Property – Bulgaria

Nadezhda Property

On March 5, 2019, the Company entered into an option agreement for the Nadezhda project, which is centered on the Makedontsi deposit. Under the terms of the option agreement, the Company can earn a 70% interest in the Nadezhda project by delivering certain data and reports including a mineral resource estimate prepared under National Instrument 43-101 of the Canadian Securities Administrators. The term of the option agreement is six years.

On November 16, 2021, the Company announced that it had met its obligation under the option agreement and had exercised its option and earned a 70% interest in the Nadezhda project and to be in joint venture with Gorubso for the further development of the Nadezhda project. As at September 30, 2025 the joint venture entity had not been formed.

Dangovo Property

The Dangovo property was acquired by means of staking and the prospecting license contract with the Ministry of Energy came into effect on August 23, 2022. The Dangovo property is contiguous with the Company's Nadezhda property (Makedontsi project), where a historical resource is registered with the Bulgarian State. Dangovo was acquired to explore for potential extensions of known gold mineralization at Makedontsi project.

c) Momchil Property – Bulgaria

On March 5, 2019, the Company entered into an option agreement for the Momchil project, which is centered on the Obichnik deposit. Under the terms of the option agreement, the Company can earn a 70% interest in the Momchil project by delivering certain data and reports including a mineral resource estimate prepared under NI 43-101.

On June 23, 2021, the Company announced that it had met its obligation under the option agreement and had exercised its option and earned a 70% interest in the Momchil project and to be in joint venture with Gorubso for the further development of the Momchil project. As at December 31, 2025 the joint venture entity had not been formed.

d) Igliko Property – Bulgaria

On June 26, 2020, the Company entered into a letter agreement with Balkan Minerals Development OOD ("BMD"), a Bulgarian private company, and its shareholders, for an exclusive option to acquire a 100% interest in the Igliko gold-copper property ("Igliko") through acquiring all of the issued and outstanding shares of BMD.

On February 19, 2021, the parties entered into a definitive agreement, which amended the terms of the letter agreement. Pursuant to the terms of the definitive agreement, the Company could acquire 100% of BMD shares by incurring EUR 300,000 in exploration and evaluation by December 31, 2021. On March 2, 2021, the Company acquired 100% of BMD shares. BMD former shareholders have retained a 2% net smelter returns royalty capped at US\$5,000,000. At any time, 1.5% of the royalty can be purchased for EUR 1,500,000.

Dundee Precious Metals Inc. Earn-in (terminated)

On June 12, 2023, the Company announced that it had entered into a binding letter agreement (the "DPM Letter Agreement") with Dundee Precious Metals Inc. ("DPM"), whereby the Company granted to DPM an exclusive option to acquire a 75% interest in and to the Igliko property.

DPM terminated the Igliko property Option Agreement effective July 30, 2024.

Since entering into the DPM Letter Agreement through to July 30, 2024, DPM had financed eligible exploration and evaluation expenditures on the Igliko project totaling \$3,149,245, and the Company had earned operator fees totaling \$468,984.

8. EXPLORATION AND EVALUATION ASSETS (cont'd...)

e) Zlatusha Property – Bulgaria

The Company had entered into an option agreement with Zelenrok EOOD, a subsidiary of Raiden Resources Limited (“Raiden”), to acquire up to a 75% interest in the Zlatusha copper-gold property in Bulgaria through a staged earn-in structure. The agreement, initially executed in January 2023 and subsequently amended, provided the Company with the right to earn an initial 51% interest, followed by an additional 24% interest, subject to cash or share payments, exploration expenditures, and the completion of technical milestones. In May 2024, the agreement was amended to defer all spending and payment obligations until the underlying exploration license was extended and necessary regulatory and social approvals were obtained.

On November 12, 2025, the Company entered into a Termination and Mutual Release agreement with Raiden, regarding the Company’s option to acquire a 75% interest in the Zlatusha property. As a result of the termination, the recoverable value of the property was determined to be \$nil, leading to an impairment write-down of \$975,891 in accordance with Level 3 of the fair value hierarchy.

f) Toledo Property - Bulgaria

On September 16, 2024, the Company entered into a binding letter agreement with an arm’s length third party (the “Vendor”), whereby the Vendor has granted the Company the exclusive option to acquire a 100% interest in the Toledo gold-silver property, located in the western part of Bulgaria. To exercise the option in full and acquire a 100% interest in the Property, the Company must pay US\$4,000,000 cash through installments tied to six milestones (the “Earn-In Payments”), as disclosed in the table below.

Date	Cash (USD)
Within 5 business days of the TSXV acceptance	25,000 (paid)
Upon signing of definitive agreement	75,000 (paid)
Within 90 days following filing/acceptance of investment proposal ⁽¹⁾	250,000
Within 90 days following a positive decision on an EIA report	250,000
Within 12 months following issuance of a Mining Concession	400,000
Within 90 days from delivery of a NI 43-101 compliant Mineral Resource Estimate	500,000
Concurrent with Notice of Exercise of the Option ⁽²⁾	2,500,000
Total	4,000,000

(1) Provided that if the \$250,000 cash payment for this milestone has not been made by the fifth anniversary of the execution of the Letter Agreement, the Vendor may terminate the Option at its sole discretion and without any obligation to refund the aggregate \$100,000 in payments made by the Company pursuant to the Earn-In Requirements.

(2) Provided that the Company will have six (6) years from the issuance of the mining concession for the Property during which to deliver the Option Exercise Notice.

Upon exercise of the option, the Company will grant the Vendor a 2.0% net smelter returns royalty (“NSR Royalty”) payable from the proceeds of commercial production from the Property. One quarter (0.5%) of the NSR Royalty can be purchased by the Company at any time for US\$2,000,000. An additional quarter (0.5%) can be purchased by the Company at any time for US\$3,500,000. In addition, the Company will hold a right of first refusal in respect of any future sale by the NSR Royalty holder of any interest in the NSR Royalty.

The Company is under no obligation to fulfill any of the earn-in requirements, all of which will be at the sole discretion of the Company. During the option period the Company is responsible for keeping the property in good standing.

On January 30, 2026, the Company and the Vendor entered into a definitive agreement for the Toledo property on terms substantially consistent with those of the binding letter agreement and paid USD 75,000 to the Vendor.

g) Miriofito Property – Greece

On March 13, 2025, The Company announced that it had acquired the Miriofito project by staking and had been granted the prospection and exploration license. Miriofito is a copper-gold project, located in the northern part of Greece.

9. LEASES

Lease liabilities

The Company leased vehicles in Bulgaria to support exploration and evaluation activities on its properties and leases office space in Bulgaria and Canada. The Company is utilizing an incremental borrowing rate in the range of 5% to 18% for calculating office lease liabilities and implicit interest rates in the range of 2.22%-2.90% for vehicles lease liabilities.

Lease liabilities	2025	2024
Opening balance	\$ 69,822	\$ 165,467
Additions	2,759	452
Modifications	-	-
Lease payments	(69,101)	(114,646)
Lease interest	2,767	18,109
Foreign exchange	1,091	440
Ending balance	\$ 7,338	\$ 69,822
Current portion	\$ 7,338	\$ 59,254
Long-term portion	-	10,568
	\$ 7,338	\$ 69,822

Lease liabilities	2025	2024
<i>Contractual undiscounted cash flows:</i>		
Less than one year	\$ 7,338	\$ 68,848
One to five years	-	10,735
Total undiscounted lease liabilities	\$ 7,338	\$ 79,583

During the year ended December 31, 2025, \$49,296 (2024 - \$37,411) related to short term and low value leases was included in exploration and evaluation assets within the field and vehicles line-item.

Lease receivable

The Company's lease receivable for the years ended December 31, 2025 and 2024 are as follows:

	2025	2024
Opening balance	\$ 56,083	\$ 68,513
Additions	-	132,949
Modifications	-	-
Termination of sublease	-	(67,293)
Accretion	3,421	19,398
Payments received	(59,504)	(97,484)
Ending balance	-	\$ 56,083
Current portion	-	56,083
Long-term portion	-	-
	\$ -	\$ 56,083

The lease receivable for the period up to February 1, 2024, relates to an office sublease agreement with a related party (Note 13), which commenced on August 1, 2022, and was terminated effective February 1, 2024. Beginning February 1, 2024, the lease receivable pertains to an office sublease agreement with an arm's-length party. The lease term ended on June 30, 2025.

The Company measured the lease receivable over the life of the lease utilizing an incremental borrowing rate of 18%.

10. SHARE CAPITAL AND RESERVES

Authorized share capital

Unlimited number of common shares without par value and an unlimited number of preferred shares without par value.

Issued share capital

Year ended December 31, 2025

Shares issued for warrants exercise

During the year ended December 31, 2025, the Company issued 7,313,262 common shares upon the exercise of 7,313,262 warrants at an exercise price of \$0.18 for gross proceeds of \$1,316,387.

Shares issued for options exercise

During the year ended December 31, 2025, the Company issued 40,000 common shares pursuant to the exercise of 40,000 stock options for gross proceeds of \$4,400. The Company recorded a transfer in the amount of \$2,706 from equity reserves to share capital upon the options exercise.

Year ended December 31, 2024

Shares issued for services

During the year ended December 31, 2024, the Company issued 350,000 common shares fair-valued at \$35,000 for consulting fees, pursuant to a strategic review process advisory agreement.

Shares issued for warrants exercise

During the year ended December 31, 2024, the Company issued 879,200 common shares upon the exercise of 879,200 warrants at an exercise price of \$0.10 for gross proceeds of \$87,920 and reclassified the fair value of the warrants of \$31,028 previously recorded in equity reserve to share capital.

Stock options

The Company has an incentive stock option plan, which provides that the Board of Directors of the Company may from time-to-time, at its discretion, and in accordance with the TSX-V requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares reserved for issuance will not exceed a rolling 10% of the Company's issued and outstanding common shares at the time the options are granted. Vesting of stock options is at the discretion of the Board of Directors. Stock options are exercisable for a maximum of 10 years, and the exercise price of the stock options is set in accordance with the policies of the TSX-V.

Stock option transactions are summarized as follows:

	Number of Options	Weighted Average Exercise Price
As at December 31, 2023	9,596,000	\$ 0.28
Granted	3,735,000	0.11
Forfeited	(1,057,000)	0.26
As at December 31, 2024	12,274,000	\$ 0.23
Granted	3,565,000	0.17
Exercised	(40,000)	0.11
Expired	(790,000)	0.48

For years ended December 31, 2025 and 2024

10.SHARE CAPITAL AND RESERVES (cont'd...)

Stock options (cont'd...)

As at December 31, 2025, the Company had stock options outstanding and exercisable enabling the holder to acquire common shares as follows:

Number of Stock options Outstanding	Exercise Price	Number of Stock options Exercisable	Expiry Date	Remaining life in years
1,134,000	\$0.45	1,134,000	May 12, 2026	0.4
2,990,000	\$0.30	2,990,000	May 31, 2027	1.4
200,000	\$0.25	200,000	August 16, 2027	1.6
3,050,000	\$0.16	2,531,500	June 22, 2028	2.5
300,000	\$0.13	199,200	October 2, 2028	3.8
3,175,000	\$0.11	1,581,150	January 10, 2029	3.0
280,000	\$0.10	139,944	May 9, 2029	3.4
3,565,000	\$0.17	593,929	March 13, 2030	4.2
14,694,000		9,369,723		2.6

The following weighted average assumptions were used for the Black-Scholes option pricing model valuation of stock options granted during the years ended December 31, 2025 and 2024:

	2025	2024
Expected life of options (years)	4.0	4.0
Annualized volatility	64%	65%
Dividend rate	-	-
Risk-free rate	2.65%	3.5%
Weighted average fair value per option granted	\$ 0.09	\$ 0.06
Weighted average exercise price per option granted	\$ 0.17	\$ 0.11

During the years ended December 31, 2025 and 2024, the Company recognized share-based compensation as follows:

	2025	2024
Share-based compensation:		
Included in statement of loss and comprehensive loss	\$ 220,481	\$ 234,370
Included in exploration and evaluation assets	61,743	83,021
Total share-based compensation expense	\$ 282,224	\$ 317,391

10. SHARE CAPITAL AND RESERVES (cont'd...)

Warrants

Warrant transactions are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
As at December 31, 2023	18,577,889	\$ -
Expired	(10,255,427)	0.24
Exercised	(879,200)	0.10
As at December 31, 2024	7,443,262	\$ 0.18
Expired	(130,000)	0.18
Exercised	(7,313,262)	0.18
As at December 31, 2025	-	\$ -

11. NON-CONTROLLING INTEREST

Non-controlling interest (“NCI”) in the net assets of consolidated subsidiaries are identified separately from the Company’s equity therein. Total comprehensive loss of the Company’s subsidiary is attributed to the equity holders of the Company and to the non-controlling interest even if this results in the non-controlling interest having a deficit balance. For the years December 31, 2025 and 2024 and as at December 31, 2025 and 2024, 30% of the net assets of the Company’s consolidated subsidiary, Tintyava, which holds the Tintyava mineral property and Dangovo mineral property, were attributable to its non-controlling interest.

The following is summarized financial information of the consolidated subsidiary Tintyava, prepared in accordance with IFRS, modified for fair value adjustments on acquisition and differences in the Company’s accounting policies. The information is before inter-company eliminations.

	2025	2024
Total loss and comprehensive loss	\$ 262,100	\$ 42,767
Total loss and comprehensive loss allocated to NCI	78,630	12,830

	2025	2024
Current assets	\$ 1,046,323	\$ 114,500
Non-current assets	19,453,395	15,911,611
Current liabilities	(165,902)	(55,505)
Non-current liabilities	(4,531,647)	(10,568)
Net assets	15,802,169	15,960,038
Net assets attributable to NCI	\$ 4,740,651	\$ 4,788,012

During the year ended December 31, 2025, the NCI partner made contributions of \$31,269 (2024 - \$62,463) in cash to the capital of Tintyava.

12. PROJECT EVALUATION

	2025	2024
Field and vehicles	\$ 1,856	\$ 81,776
Geological consulting (Note 13)	5,541	295,861
Geochemistry	-	11,921
Permit application fees	-	17,141
Salaries	31,655	188,846
	\$ 39,052	\$ 595,545

Field and vehicles expense includes depreciation expense of \$nil for the year ended December 31, 2025 (2024 - \$11,430).

13. RELATED PARTY TRANSACTIONS

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company. The Company has determined that key management personnel consist of executive and non-executive members of the Company's Board of Directors and corporate officers. Key management personnel compensation for the years ended December 31, 2025 and 2024 was as follows:

	2025	2024
Short-term benefits paid or accrued:		
Consulting fees	\$ 593,766	\$ 266,438
Salaries and directors' fees	1,288,765	445,663
	1,882,531	712,101
Share-based compensation:		
Share-based compensation	199,289	200,943
Total remuneration	\$ 2,081,820	\$ 913,044

Consulting fees of \$270,251 are included in exploration and evaluation assets for the year ended December 31, 2025 (2024 - \$125,448), and \$3,420 are included in project evaluation costs (Note 12) for the year ended December 31, 2025 (2024 - \$123,227).

As at December 31, 2025, \$760,000 due to key management personnel has been accrued and included in trade and other payables (December 31, 2024 - \$nil).

Related party

Effective August 1, 2022, the Company entered into an office sub-lease agreement with a term of three years, with Latin Metals Inc. ("Latin Metals"). The Company and Latin Metals share a common officer and director.

	2025	2024
Rent	\$ -	\$ 4,171

The Company and Latin Metals mutually agreed to terminate the office sub-lease agreement effective February 1, 2024, without any penalties.

14. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Greece	\$ 6,000	2030	-	-

Tax attributes are subject to review and potential adjustment by tax authorities.

16. FINANCIAL RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - inputs for the asset or liability that are not based on observable market data.

The Company's financial instruments consist of cash and cash equivalents, restricted cash, receivables, trade and other payables, and advances from partner for exploration.

As at December 31, 2025, the carrying values of receivables, trade and other payables, and advances for exploration approximate their fair values due to their short terms to maturity. The Company's cash and cash equivalents under the fair value hierarchy is based on level 1 quoted prices in active markets for identical assets or liabilities.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company's credit risk is attributable to cash and cash equivalents and receivables. Cash and cash equivalents consist of balances held at reputable financial institutions, from which management believes the risk of loss to be remote. Management believes that the credit risk concentration with respect to receivables is equal to its carrying value. Receivables comprises amounts due from the Government of Canada and Bulgaria. As of December 31, 2025, the Company's exposure to credit risk in Canada and Bulgaria is minimal.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

As of December 31, 2025, the Company had a cash and cash equivalents balance of \$3,037,016 (2024- \$1,167,717) and receivables of \$238,278 (2024 - \$56,147) to settle trade and other payables, advances for exploration, and current lease liabilities of \$3,191,286 (2024 - \$620,790). All of the Company's trade and other payables are subject to normal trade terms.

As of December 31, 2025, the Company had a restricted cash balance of \$22,614,900 (US\$ 16,500,000 (Note 4)(2024-\$nil), which is held as collateral for a standby letter of credit and is not available for working capital purposes. Interest earned on the restricted cash is available to the Company for working capital. In addition, the Company had a restricted cash balance of \$147,438 (2024 - \$66,743) in connection with bank guarantees for exploration programs (Note 4).

The Company's liquidity strategy includes deferral or reduction of discretionary expenditures, negotiating extensions of payment terms where appropriate, and securing additional financing through equity issuances and/or debt facilities.

Historically, the Company's sole source of funding has been issuance of shares or convertible debenture. The Company's access to financing is always uncertain. There can be no assurance of continued access to funding. The Company will seek to complete further equity financing to continue its programs on its exploration and evaluation assets.

16. FINANCIAL RISK MANAGEMENT (cont'd ...)

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and price risk.

a) Interest risk

Interest rate risks is the risk that the fair value of future cash flows from a financial instrument will fluctuate because of changes in market prices. The Company has cash balances, which are exposed to interest rate fluctuations. The Company is not subject to significant exposure to interest rate risk.

b) Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to assets and liabilities that are denominated in United States dollars, Bulgarian Lev or Euro. As at December 31, 2025, the Company had cash funds denominated in the United States dollars, the Bulgarian Lev and the Euro. A 10% fluctuation between the Canadian dollar against these foreign currencies, would result in \$9,800 decrease or increase in profit or loss.

a) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's profit or loss and the ability to obtain financing, due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices, individual equity movements and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in value may be significant.

17. CAPITAL MANAGEMENT

The Company manages its capital structure and adjusts it, based on the funds available to the Company, in order to support the acquisition, exploration and evaluation of its mineral resource properties. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business. The capital structure of the Company consists of shareholders' equity. The Company is not exposed to any externally imposed capital requirements.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the year ended December 31, 2025.

18. SEGMENT INFORMATION

As at December 31, 2025, all of the Company's long – term assets are in Bulgaria, except for an exploration and evaluation asset with a carrying balance of \$43,647 (December 31, 2024- \$nil) in respect to the Miriofito property in Greece (Note 8(g)).

19. SUBSEQUENT EVENT

Stock options grant

On January 21, 2026 the Company granted 3,665,000 common share stock options to various directors, officers, employees and consultants of the Company and its affiliates. The options entitle the holder to purchase shares at a price of \$0.18 per share for a period of 5 years from the issue date. Options vest over 3 years, beginning 6 months from the date of issue and vesting in equal tranches bi-annually thereafter.
